

Performing Arts

Subject: Performing Arts
Teacher Responsible for Curriculum: K Saint
Intent Statement
<p>The performing arts curriculum is designed so that students have access to acquire knowledge and dance, drama and music skills. With this knowledge they gain, the curriculum aims to inspire communication, teamwork, confidence and creativity. The arts are there to help unlock self- expression and develop in their social and emotional skills.</p> <p>For each student to be able to make progress in skills that will facilitate their future lives is the overarching goal for this curriculum. As well as finding enjoyment in the subjects and exploring them critically and creatively.</p>
Implementation
<p>To succeed in this aim, performing arts lessons will have a range of activities where individuals can explore ideas physically and be openminded to new skills to facilitate their creativity. As well as this, creativity will be supported through freedom of movement choices in relation to the class content. Aspects such as teamwork and communication will be supported through group work and problem-solving activities. Overall, this will increase confidence as they are able to have autonomy in the classroom as well as an increased sense of belonging within the environment.</p>
Impact
<p>The impact of this curriculum will be that students are able to have a range of subject exposure which increases the overall enjoyment by students. Students can use their skill knowledge to create and implement into their own performances. Having another physical outlet will be beneficial for cognition and focus during the rest of the day. The skills they will acquire are useful for their future lives being able to be confident and work well as a team.</p>
