

7V class – Intended Community visits for Summer 1

During each community visit we will explore different modes of transport, increasing independence and working on different areas of travel training in doing so. Students will continue to develop their cross-curricular links by visiting a variety of places, building confidence and life skills whilst out in the wider community. These visits really are valuable and provide students with opportunities to interact outside of their comfort zone

Destination	Method of Travel	Week
Wokingham Library	Minibus / public transport	15th April
Sainsburys – buying cooking ingredients	Walk	22nd April
